6. Ronnie has given Freya the clues below. She must work out and convert the amount he has.

Ronnie

No less than 300p and no more than 400p.

Uses at least seven 50p coins.

Is a multiple of 5.

Freya

I think Ronnie's amount is £3 and 20p.

Is Freya correct? Prove it.

9. Isobel has given Arthur the clues below. He must work out and convert the amount she has.

Isobel

I have two notes and four coins.

The total is no greater than four lots of £5.

The pounds value is a multiple of 2 and the pence is a multiple of 8.

Arthur

I think Isobel's amount is £18 and 32p.

Is Arthur correct? Prove it.
