

Ancient Greek Gods Information Cards

Teacher Notes

Activity

Children work in pairs and take one card at a time. They research the god/goddess on each card using books/the internet/fact cards etc. and decide between them on appropriate scores for each category. They need to be able to explain to the rest of the group /class the key facts they have learnt about that god/goddess and why they deserve the scores they've been given. The cards are put together, shuffled, and the game played as below.

How to Play:

Children share the cards between the number of players. The players keep their cards in a pile in the same order. Each player looks at one of their cards at a time. The first player chooses the category they think their card is strongest on, and reads it out. All players share the score on their card for that category. The player with the highest score wins all of the cards, which they put at the bottom of their pile. It is their turn to pick the next category.
