

# Measurement - Mass

## Mass

We use scales to measure **grams**.

A gram is a small unit of measurement that we use to measure how heavy or light something is.

We can write gram as **g**.

**We measure the following using grams:**

We also use scales to measure **kilograms**.

A kilogram is a larger unit of measurement that we use to measure how light or heavy something is.

We can write kilogram as **kg**.

**We measure the following using kilograms:**

## Key Vocabulary

**mass**

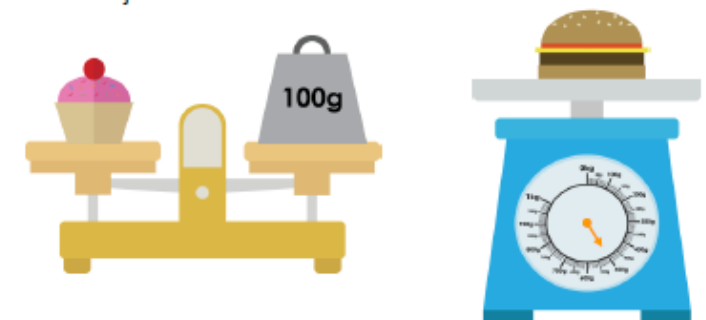

**gram**

**kilogram**

**lighter**

## Compare and Order

Once skills of measuring have been secured, it is possible to combine them with the skill of using  $<$ ,  $>$  and  $=$  learnt earlier in the year to compare two objects:

**The burger is heavier than the cake.**
